ecomark

This product must be diluted when used.

It should never be mixed with other detergents or chemicals and should be rinsed of within 15 minutes if used on plastic, painted areas, rubber, linoleum or asphalt.

This information should be added to the label. Always remember to check the

labels of similar products on the market. This will give you an idea on how to

caution the public on the uses of the chemical products.

Toilet bowl cleaners prevent or remove stains caused by hard water and rust

deposits, and maintain a clean and pleasant-smelling bowl. Some products also disinfect.
